Schedule #5—Program Executive Summary

County-district number or vendor ID: 015-828

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

Harmony School of Innovation – Brownsville (HSI-Brownsville) will open in Cameron County in 2017-2018 school year. The school will be an addition to the existing Harmony schools in Brownsville. HSI-Brownsville accepts students via lottery. HSI-Brownsville will enroll 455 students in grades 6-12. There is a high demand for quality public school options in Brownsville area. The school is expected to mirror the similar demographics of existing Harmony Brownsville school; 97.3% Hispanic, 0.2% Black, 0.8% Asian, 1.7% White, 86% Economically Disadvantaged, 33.7% LEP, and 6.2% Special Ed.

Mission: *HSI-Brownsville will be unique campus focusing on dual credit program and CTE pathways to help students acquire technical skills, participate in hands-on learning, jump-start their future career, and earn college credit in high school. Dual credit programs will help students earn free college credits and advance academically. CTE pathway will provide both foundation and elective courses within a student's area of interest. Students in CTE pathway will have the opportunity to pursue postsecondary certificates and degrees.*

Background: HSI-Brownsville is part of Harmony Public Schools (HPS) system. Harmony has a 16 year track record of consistently supporting all students, regardless of race or income level, in achieving outstanding academic results. Beginning with the launch of its first STEM-focused school in Houston in 2000, Harmony has transformed the way Texas students, especially educationally disadvantaged populations, engage with math and science. As a result of their performance, Harmony schools have earned numerous national recognitions: U.S. News & World Report's "Best High Schools in the Nation" list, The Washington Post's "Most Challenging High Schools" list, and Newsweek's "America's Best High Schools" list.

HSI-Brownsville will build student achievement and outcomes on four core instructional elements:

1. Challenging math and science curriculum, with an emphasis on project-based learning (PBL)
2. Blending mastery of core knowledge with personalizing learning
3. Focus on assessment and interventions with differentiation for students with special needs
4. Culture of constructive competition, discipline, and parental engagement

To deepen its impact and organizational strength, Harmony is looking for financial support for HSI-Brownsville. The school will use the Start Up fund to implement the four core instructional element listed above.

Core Values: HSI-Brownsville will adopt a set of in-house developed core values that inform and guide the organization in all aspects and contribute to a consistent, results-oriented culture across all regions and schools:

1. **High Expectations:** Every student will learn and grow into a successful and productive citizen.
2. **Dedicated Staff:** We do whatever it takes to help our students reach their goals.
3. **Working Together:** Our students, parents, and staff work in harmony to create a strong community of success.
4. **Character Matters:** We guide our students to value integrity, show respect, and be responsible.
5. **STEM for All:** Every student will graduate with a strong understanding and appreciation of STEM and how it connects to the real world.

Curriculum: As part of its core values, HSI-Brownsville will provide STEM-focused education. Harmony campuses have been part of the T-STEM network since beginning of the initiative. There are currently 121 TEA designated T-STEM Academies across the state and 23 of them are Harmony Schools. The current Harmony Brownsville school is a T-STEM designated school. The existing Harmony Brownsville campus will offer its STEM knowledge base and expertise to HSI-Brownsville. Harmony STEM program provides curriculum, instructional resources, and professional development for STEM teachers and has the following components:

HPS Project Based Learning Program (PBL): HPS provides curriculum, instructional resources, and PBL training to the teachers. Curriculum specialists and instructional coaches support teachers on site to assist the implementation of PBL.

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 015-828

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

- **Professional Development:** HSI-Brownsville believes that *content-focused professional development* is a critical need to ensure the quality of teaching science and mathematics. Our STEM training model has two major components; the mastery of content knowledge and delivery of the content with effective instructional practices.
- **STEM Culture:** Harmony's central STEM department will provide HSI-Brownsville strategies and resources for schools to build STEM school atmosphere connecting the students to higher education. The school will design a variety of opportunities for students to take STEM education "beyond the classroom" and provide opportunities to how instruction connects to career and lifelong learning

Assesment: The school's core curriculum will be supported by the purposeful use of diagnostic, formative, benchmark, and summative assessments aligned to the standards. Harmony's ongoing assessment system includes NWEA MAP and College Board Readistep. HSI-Brownsville's comprehensive approach to assessment will provide teachers the information they need to understand the specific skills and abilities of each student, set accelerated goals, differentiate instruction, and provide timely corrective instruction where necessary to ensure student mastery. The school will offer Saturday tutorials for the struggling students. The school will utilize specialized assessment tools for ESL and special ed students to ensure equitable access to education.

Teachers and Professional Development: HSI-Brownsville will employ a body of distinguished faculty. Most Brownsville area charter schools face challenges in attracting and retaining gifted instructors. HSI-Brownsville will overcome this issue by recruiting experienced individuals from diverse backgrounds. In addition, experienced Harmony staff, if and when needed, will be transferred over to HSI-Brownsville. Harmony has developed innovative human capital strategies that support attracting and retaining the highest quality teachers for its schools:

- Incentives for hard-to-staff subjects (math, science, computer/technology applications, bilingual/ESL, and special education)
- Financial assistance to teachers to obtain a Master's of Education degree or principal's certificate for future school leaders
- Financial assistance to support subject-based advanced degrees for Harmony school leaders
- Ongoing high-quality professional development

HSI-Brownsville will adopt Harmony's teacher evaluation and professional development model. The school's teacher evaluation will be based on Danielson Framework.

Parental Outreach: An indispensable element for HSI-Brownsville's success will be parental involvement. We believe that when parents, communities, and the school work together, children succeed and that when families take part in their children's education, children do better at school. For this reason, Harmony created a Parent Connect website, both English and Spanish, to provide information on the concept taught for each subject, list of resources for the course including online access for curriculum materials as well as other online resources that enhance learning beyond school hours. Parents of HSI-Brownsville will have access to those amazing online resources for free of charge.

The school will have periodic parent teacher meetings where parents and teachers get together to get to know one another and discuss the students' needs, concerns and academic performance. HSI-Brownsville will employ a home visit program which encourages teachers make home visits to discuss student progress with the parents. In addition, the school will communicate school news and available programs to parents via e-newsletters.

Providing all services listed above the grant funds will be used for the initial start-up needs of HSI-Brownsville. These needs however will not include extracurricular activities for students, competitions, interventionist salaries, teacher salaries, financial assistance for teachers to get advanced degrees, and the compensation system that rewards staff for performance.

Schedule #13—Needs Assessment

County-district number or vendor ID: 015-828

Amendment # (for amendments only):

Part 1: Process Description. A needs assessment is a systematic process for identifying and prioritizing needs, with "need" defined as the difference between current achievement and desired or required accomplishment. Describe your needs assessment process, including a description of how needs are prioritized. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

HSI-Brownsville needs this grant to supplement its four core instructional elements for student achievement:

1. Challenging math and science curriculum, with an emphasis on project-based learning (PBL)
2. Blending mastery of core knowledge with personalizing learning
3. Focus on assessment and interventions with differentiation for students with special needs
4. Culture of constructive competition, discipline, and parental engagement

In addition, the Start-Up funds will also supplement to recruit, develop, and retain a talented workforce.

1. HSI-Brownsville will implement a standards-focused **project-based learning (PBL)** approach. Integrating technology and standards-based PBL into our core STEM curriculum has proven success record in other Harmony campuses. In order to be able to implement PBL and integrate this delivery method into our core curriculum with fidelity, HSI-Brownsville will need classrooms, computer stations, and science labs equipped with project materials and supplies to be able to assign individual PBL projects to each student. HSI-Brownsville will also need carefully crafted training modules to be able to deliver high quality PBL training and model various project demonstrations for new teachers. For students to acquire 21st century skills and showcase their learning artifacts through their projects, HSI-Brownsville will also need technology equipment such as portable classroom laptop sets, digital cameras, etc.

2. HSI-Brownsville will adopt **the custom day program**, which provides two hours of targeted instruction every day in math and reading, where students are provided with intervention, enrichment and advancement opportunities. Students work on a multitude of learning opportunities in 1:1 settings, small groups, and extended learning opportunities where they have the capability to work and progress at their own pace through leveraging adaptive learning technologies. In this setting, teacher acts as a facilitator to both ensure students are on-track with their personalized learning plans and also provided much needed targeted feedback on their personalized growth, and provide 1:1 and small group support when needed. HSI-Brownsville will create the same personalized learning structure and the school will need software licensing as well as computer equipment to set up these blended learning spaces and strong PD modules to train teachers to make sure they adjust to their new role as a blended learning facilitator.

3. HSI-Brownsville will identify **intervention** needs early in the year using NWEA MAP, STAAR practice, and in-house developed assessments. Intervention program will include 1:1 pull out tutoring, after school and Saturday tutorings. Continuous data analysis will be utilized to monitor student learning and growth. Reading and math interventionists will be hired to support students in need of interventions. Personalized learning softwares will be utilized to support reading and math instruction for all students including students with special needs. Extra hour/period for reading and math courses in upper grades will decrease achievement gap and support student learning in meeting academic goals. Small group instruction will take place in extra hour/period classes based on individual student needs. Data meetings, parent meetings, and department meetings will support intervention programs and advocate for student learning.

4. To promote strong school culture and classroom management, Harmony has developed a **discipline point system** that allows teachers to spend more time on instruction, and less time on discipline. This information is tracked in the Harmony student database, enabling students, teachers, and parents to collaborate. **Harmony Parent website** provides information about the subjects and resources that is taught in the school and informative website links to enhance the child learning at home. Teachers will be encouraged to make home visits to discuss student progress with parents. Parents surveys will be utilized to evaluate the strength and weaknesses of the school and various parent informative gatherings will be held to support student academic achievement.

5. HSI-Brownsville will have a body of of **highly-qualified teachers**. Teachers and administrators will be provided professional development to ensure that they understand the Harmony instructional system and continue to get this support for the whole grant term.

Financial assistance will be given to the teachers to get Master's in education or principal certificate to create their own administrators. No grant funds however will be used for teacher salaries, financial assistance for teachers to get a Master's in Education, incentives.
